

A Fairer Wales video transcript

Devolution has done great things for Wales, BUT
too many people are still trapped in poverty or denied opportunities

We believe that everyone should have a fair chance.

Will you help us build a fairer Wales?

We're creating more and better jobs:

In the last 20 years, unemployment amongst young men has gone up.

We're finding new ways to create jobs in disadvantaged areas.

Helping hard-pressed families:

In the last 20 years, earnings have not kept up with the cost of living.

We're creating new schemes to support people on low incomes.

Improving people's health:

In the last 20 years, people in deprived communities have suffered poorer health.

We're developing solutions to improve health care.

You can create a fairer Wales with us
